- The "Maximum Component Clearance" (MCC) is the total height of all the components to be installed in the unit. Half inch of air space allowed for each shelf in the MCC measurement.
- Not all components will rotate inside a 25 3/4" enclosure. Please measure all components to be installed and make appropriate adjustments to the rough opening.
- Shelf count includes the bottom fixed shelf. All adjustable shelves are standard 3/4" thick. Upgrades available.
- Custom cut heights available.
